

Technique: Basic Frame

Pattern: 15-Bead Basic (BB), Pointed Top (PT) Rounded Bottom (RB), 5 rows

1. Make a 15-BB frame with a 5-inch (12.7 cm) twisted wire/loop.

2. To make a **pointed top**, position the working wire at a 45-degree angle. (*Photo 1*)

3. Wrap the working-wire at that angle by going behind the basic top wire. (*Photo 2*)

4. Bring the working-wire back to the front at that angle. (*Photo 3*)

5. Feed more beads onto the working-wire and make sure to push the beads up so that the tip of the wire is covered. This creates a **pointed top**. (*Photo 4*) Make a **rounded bottom** on the twisted wire.
