

ASSEMBLY

1. **Assembled Stem:** Floss a Flower Stem, Leaf Stem A, and a Budding Flower stem together - Make 2. *Photo 37.*
2. Follow Stem 1 instructions and floss the Flower, Leaf Stem A and Budding flower stem together. Go down about 1 inch (2 cm) and attach a Assembled Stem. *Photo 38.*
3. Leave about ½ inch (1.2 cm) in between and floss in the second Assembled Stem.
4. After all of the Flower Stems have been flossed in, attach the **Leaf B Stems**.
5. Floss down about 2 inches (5 cm) after the last **Leaf Stem**. Trim the stem wires so that they are flush. Cut and knot the floss then secure with floral tape.
